---

When we receive your application to shadow, you will be contacted to set up a date and time to come in.

When you do come in to shadow, **please follow these guidelines:**

- 1. Attire should be business casual.** Men: khakis, dress pants, shirts or golf-type shirts with collars, sweaters, and shoes. Women: dress pants or khakis, blouses, tops, sweaters, and shoes. Please do not wear open toed shoes or flip flops. We ask you dress appropriately for professionalism and safety reasons.  
(If you are shadowing a doctor in surgery we will supply scrubs for you to wear.)
- 2. Cell phones are to be kept with your belongings in our break room.** Your cell phone & belongings will be kept safe.
- 3.** Please bring a drink, snack and/or lunch if you are spending more than a few hours here visiting – days here can be long. All food should be kept in the break room.
- 4.** Do not hesitate to make someone aware if you are uncomfortable around a particular animal or in surgery. Safety is our main concern.
- 5.** Ask questions! Take an active role in shadowing by asking the doctors and staff any questions you might have; you are here to learn and we are here to help!
